

DR. R. A. GUNN.

EDITOR MEDICAL TRIBUNE and DEAN of the U. S. MEDICAL COLLEGE, NEW YORK.

Dr. Gunn's name is a household word throughout America. His book, entitled "The Family Physician," has been used as a standard book of reference for years. Dr. Gunn has made a specialty of curing people. He uses such means as he knows and has found out by experience will cure them. As a result he is a great and constant advocate of probably the leading standard remedy of this age. In speaking about it, he said:

"I tried this remedy over ten years ago in a bad case of Bright's disease and the patient got well. I tried it in other cases with equally good results, and then wrote up the proprietors and they sent me the formula according to which it is made. I have used it in many cases since then and the results have been all I could desire. I have seen patients recover from Bright's disease, gravel and inflammation of the bladder after taking Warner's Safe Cure, even when all other remedies had failed.

Dr. Gunn was asked if he would refer to some person who had been cured by it. He refused to give names but said he had many number of cases and men-

tioned one. It was that of a lady. Speaking concerning it, he said:

"She had been suffering from Bright's disease for some time. She became emaciated, and about the fourth month she suddenly became blind, had convulsions, and finally went into an uremic coma. Several physicians who saw her said she could not live and in this I fully concurred. As she could still swallow I said that as a last resort they might try Warner's Safe Cure. They did so, and to the surprise of everyone, she recovered. She has since given birth to a living child and is perfectly well."

Dr. Gunn said that he knows many physicians who prescribe Warner's Safe Cure regularly, and for the reason that they find their patients, both male and female, are benefited by it. It is, of course, well-known, that this great remedy is the standard preparation in America not only for all liver and female complaints, but as a pure spring medicine and blood purifier. No cure ever known to the world has ever had such endorsements as it has, and it stands, as it deserves to stand, wholly upon its merit.

"BIG JIM" SPEAKS OUT.

A Keeley Graduate Tells of Things He Knows.

ONLY THREE DRUGSTORES IN TOWN

Which Depend on Their Sales of Drugs for Support—The Rest Are All Kumbhoos, He Says.

"Big Jim" McHenry who is about to graduate from the Keeley institute, has sent the following communication to the STATE JOURNAL:

DEAR SIR:—I see in your issue of the 10th that 'Big Jim McHenry is the worst case the Keeley institute ever tackled.' That is a mistake. I have been here four weeks and I am cured. I am staying a few days longer for my nerves and kidneys.

There are hundreds of people in Topeka who use my name for street conversation that need to take the cure as bad as I did, but they are ashamed to do it. It is a disgrace to get in that fix, but it is no disgrace to get rid of the terrible habit.

It is true that I drank lots of whiskey—that is, the drug stores called it whiskey. I have got another name for it. There are drug stores in Topeka that don't sell ten dollars worth of drugs in a month. They depend entirely on their rot-gut poison for their money, and they get it, too. There are but three drug stores in Topeka that keep within the boundaries of the law. At the rest of them you can sign any name you want to and as many times in one day as you like. Half the people don't sign at all and they can get it in any amount from a thimbleful to a barrel. I think it would be wise for the police board or the council or county attorney or somebody to get after those people and get a few of their dollars that they get every month dishonestly. They have got things entirely their own way and there hasn't been anybody with nerve enough to expose them. If any of you druggists don't like this you can take it out of my hide, providing you can. I expect to live in Topeka and make an honest living, to show people that I can. Topeka is the place where I lost my reputation, and here is where I shall build it up again. Those druggists were among the first to kick on clubs and joints. Respectfully yours,

J. M. McHENRY.

RINGLING DAY MONDAY.

The Visit of the World's Greatest Shows Rapidly Approaching.

Ringling day is almost here. Nothing is liked of but the Ringling Brothers' World's Greatest Shows, and next Monday, May 14, will be a gala day in Topeka.

Those who have watched the rise and growth of this great amusement enterprise will not be surprised to learn that it is bigger, better and more colossal in all its departments than ever before, and that no other exhibition can now compare with it either in size, costliness or in the wide diversity of its many mighty features. Lunding, the muscular colossus, who is one of the features of the arena performance, alone receives a salary which would bankrupt any other amusement enterprise. Instead of one or two good riders, Ringling Brothers have a score of the greatest equestrians in the world; while in the number of aerial, gymnastic, acrobatic, and unique specialty features, Ringling Bros' shows stand alone. Lovers of acrobatic feats will find in this exhibition the best that can be procured; admirers of fine stock will find in the horse fair a never ending source of delight; those who love to feast their eyes on the spectacular, will find in the glorious pageant of Caesar's triumphal entry into Rome, which is given as an incident of the performance, a picture of splendor in costuming and mise-en-scene such as is rarely seen in any show. The spectacle of the Roman triumph, which whose blood is quickened by the thrilling contests of the hippodrome will find in the exciting Roman standing and chariot races, excitement enough to satisfy their utmost expectation. The procession which inaugurates circus day is said to be the finest ever seen in the streets of any city, and as a special concession to the people of this community and vicinity, many of the magnificently carved and gold illuminated dens of wild beasts will be exhibited openly upon the city's thoroughfares.

SOCIALISTS CARRY A POINT

The Bill to Make Chopping Off Heads a Private Spectacle.

PARIS, May 12.—In the chamber of deputies today the bill providing that the execution of criminals shall hereafter be conducted privately instead of publicly as now, passed its second reading.

This result is a victory for the socialists and radicals who are advocating the abolition of capital punishment.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HOMES IN CONFUSION.

Moving and House-Cleaning Days Are Upon Us—Comfortless Men and Cross, Tired Out, Nervous Women.

Van Tromp, with a broom at his mast-head, sailed up and down the Thames in defiance.

Brooms and dust rags are now putting households everywhere into confusion.

The traditional time for moving and house cleaning is upon us. Innumerable cases of weakened nerves, exhausted strength and debility date from these days of feverish exertion, fret, and cold rooms.

Every good housewife, however, feels bound to risk health and strength in this annual struggle with dirt and dust.

But as a preparation for great bodily and mental strain, hosts of careful women build up their strength with Paine's celery compound, the great nerve and

brain strengthener and restorer. Physicians prescribe it for dyspepsia, kidney trouble, sick headaches, and all forms of nervous weakness, because it makes people well when other remedies can do no good.

Men and women who have the tired, languid feeling that indicates depleted blood and a feeble condition of the nervous system, need Paine's celery compound, the remarkable discovery of Prof. Edward E. Paine, M. D., LL. D., of Dartmouth medical school, the one great spring medicine prescribed by physicians of every school.

Sleep is the necessary condition of the system to restore its lost powers and retain its vigor. Paine's celery compound quickly repairs the waste, worn-out nervous tissues, calms and equalizes ner-

vous action and brings refreshing sleep that makes recovery easy.

There is such a thing as too closely watching for signs of ill health, but, on the other hand, there is a wise attention to signs of weakness and breaking down. Painful sensations and sudden weakness are nature's evident hints. Constipation, with flatulency and nausea, in the early morning, suggests serious trouble. The dull, wearing ache at the side and back should make one pause to think.

Bright's disease and disorders of the heart and liver may be positively and permanently cured by taking Paine's celery compound as soon as neuralgia, weakness, rheumatism, lack of appetite, and low spirits show the beginnings of disease of some of these important organs.
